

STATISTICS WORKSHEET-1

Q1 to Q9 have only one correct answer. Choose the correct option to answer your question.

| 1. | Bernoulli random variables take (only) the values 1 and 0. |
|----|--|

- a) True
- b) False
- 2. Which of the following theorem states that the distribution of averages of iid variables, properly normalized, becomes that of a standard normal as the sample size increases?
 - a) Central Limit Theorem
 - b) Central Mean Theorem
 - c) Centroid Limit Theorem
 - d) All of the mentioned
- 3. Which of the following is incorrect with respect to use of Poisson distribution?
 - a) Modeling event/time data
 - b) Modeling bounded count data
 - c) Modeling contingency tables
 - d) All of the mentioned
- 4. Point out the correct statement.
 - a) The exponent of a normally distributed random variables follows what is called the log-normal distribution
 - b) Sums of normally distributed random variables are again normally distributed even if the variables are dependent
 - c) The square of a standard normal random variable follows what is called chi-squared distribution
 - d) All of the mentioned

random variables are used to model rates.
a) Empirical

- b) Binomial
- c) Poisson
- d) All of the mentioned
- 6. 10. Usually replacing the standard error by its estimated value does change the CLT.
 - a) True
 - b) False
- 7. 1. Which of the following testing is concerned with making decisions using data?
 - a) Probability
 - b) Hypothesis
 - c) Causal
 - d) None of the mentioned
- 8. 4. Normalized data are centered at_____and have units equal to standard deviations of the original data.
 - a) 0
 - b) 5
 - c) 1
 - d) 10
- 9. Which of the following statement is incorrect with respect to outliers?
 - a) Outliers can have varying degrees of influence
 - b) Outliers can be the result of spurious or real processes
 - c) Outliers cannot conform to the regression relationship
 - d) None of the mentioned

Q10and Q15 are subjective answer type questions, Answer them in your own words briefly.

- 10. What do you understand by the term Normal Distribution?
- 11. How do you handle missing data? What imputation techniques do you recommend?
- 12. What is A/B testing?
- 13. Is mean imputation of missing data acceptable practice?
- 14. What is linear regression in statistics?
- 15. What are the various branches of statistics?
